## Executive Summary

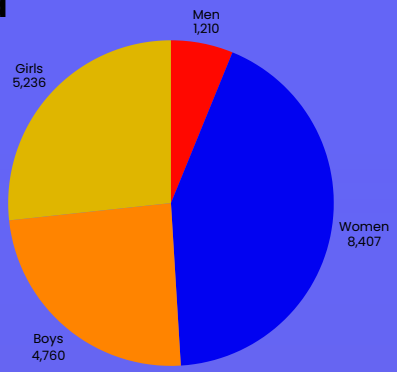

In February 2026, Care Best Initiative (CBI) reached **20,000** vulnerable populations delivering integrated humanitarian support across Health, Protection, Nutrition, and Education sectors, while strengthening partnerships for future WASH interventions.

Through coordinated service delivery and community engagement, CBI improved access to essential healthcare, protection services, nutrition support, and education, reaching vulnerable populations with life-saving and resilience-building interventions

| | | | |
|---|---|---|---|
| **20,000** People reached | **3** **LGAs** Covered | **Multiple Communities Engaged** | **Multi-Sectoral Response** |

### Sectoral Highlights of Beneficiaries Reached

- **9,000+** Health
- **5,000+** Nutrition
- **6,000+** Protection

Health interventions provided care to over **9,000** people and contributed to a reduction in suspected measles cases in Dusuman community from over **30** to about **11** cases.

Additionally, **6,148** community members received GBV and PSEA awareness, while over **5,000** children and caregivers accessed life-saving nutrition services.

This helped to strengthen early detection and management of malnutrition, while also reinforcing partnerships for future WASH interventions."

CBI also continued to strengthen its role in Water, Sanitation and Hygiene (WASH), FSL, and Education, through strategic engagement, advocacy, and resource mobilization efforts.

## Other Highlights

To increase our reach and for continuous impact and sustainable outcomes, the Education, WASH, and Food Security and Livelihood (FSL) programmes, CBI engaged various partners for broader collaborations.

### WASH

Care Best Initiative strengthened its engagement in the WASH sector through strategic partnership building, active participation in coordination platforms, and resource mobilization efforts aimed at positioning the organization for future interventions.

**Impact:**

- Increased opportunities for future funding and joint WASH programming.

### Food Security & Livelihood (FSL)

CBI also advanced its role in the Food Security and Livelihood sector by participating in key sector workshops, national coordination meetings, and technical engagements to improve program alignment and operational capacity.

**Impact:**

- Strengthened engagement in localization and collaboration with national and international partners.
- Enhanced technical capacity for designing effective livelihood and food security interventions.

### Education

Care Best Initiative implemented education-focused interventions reaching over **200** indiviuals including teachers, parents and caregivers in Jere LGA, Borno State, through stakeholder advocacy, teacher capacity building, community sensitization, and school support activities to improve enrolment, retention, and learning outcomes. This ensured:

- Strengthened collaboration with government education authorities through advocacy engagement.
- Improved teacher capacity through practical training on low-cost teaching strategies.

### Human Resources (H.R)

To ensure a free work flow, the Human Resources (HR) and the CFRM units ensured effective implementation of programme policies and beneficiary feedback.

**The H.R unit ensured:**

Objective setting across departments

- Staff re-certification and policy refreshers
- The official launch of the Staff of the Quarter Recognition Program. defining 4 key performance pillars (Team work, Collaboration, Integrity, and Impact).
- Database synchronization and improved reporting In collaboration with regional Admin Focal Points.

### CFRM

The CFRM unit carried out Community engagement activities across LGAs and stakeholder groups reaching about **60** individuals across **4** communities. A weekly satisfaction survey was also carried across 8 communities in Dikwa, MMC and Jere L.G.As reaching a total of 184 individuals of which 72% were satisfied and only 28% partially satisfied.

This showed the efficiency of our intervention programmes across board and that they are tailored to beneficiary satisfaction.
