Programme Monthly Bulletin

Responding to humanitarian needs and empowering communities in North-East Nigeria

Executive Summary

In January 2026, Care Best Initiative sustained its commitment to improving the wellbeing of vulnerable populations through integrated humanitarian interventions across Health, Nutrition, Protection, Education, and WASH sectors. Working closely with partners and communities, the organization responded to the evolving needs of conflict-affected and displaced populations, achieving notable progress in expanding access to essential services and strengthening community resilience. Highlights of key achievements during the reporting period are presented below.

Sectoral Highlights of Beneficiaries Reached

Health	11,389
Protection	11,194
Nutrition	5,591

28,174
Beneficiaries reached

Programme Location: Borno State

With support from the **Nigerian Humanitarian Fund** (NHF), Care Best Initiative implemented integrated life-saving interventions across the Health, Protection, and Nutrition sectors in January 2026, reaching over 28,000 vulnerable individuals across MMC, Jere, and Dikwa LGAs.

Targeted **healthcare delivery, nutrition services, and protection awareness activities** improved access to essential services for **children under five**, **pregnant and breastfeeding women**, caregivers, and community members. These interventions strengthened early malnutrition detection contributed to improved wellbeing and resilience among crisis-affected populations.
