## Strengthening Coordination and Preparedness for Humanitarian Impact in North-East Nigeria

## Executive Summary

In **June 2026**, CBI strengthened coordination, capacity, and preparedness across key sectors. The FSL sector improved collaboration and programme planning through coordination meetings. The WASH sector identified sanitation challenges and built capacity through assessments and training. The Protection sector enhanced coordination and prepared for field implementation. The Health and Nutrition sectors identified critical needs, sustained essential services, and reached **184** children screened, **31 treated** for SAM, and **1,866** caregivers supported through community-based interventions and improved technical capacity through coordination meetings, trainings, and partnership engagement.

### Sectoral Highlights

#### HEALTH

- Participated in Health Sector Coordination Meeting.
- Attended Adolescent Sexual and Reproductive Health (ASRH) capacity-building training.
- Participated in a 5-day Health Sector Transition Action Plan Workshop in Yola

### Impact Made

- Strengthened coordination, information sharing, and joint planning among health partners.
- Improved technical capacity to integrate ASRH into programming.
- Opened new partnership opportunities with INTERSOS.
- Increased CBI's visibility and networking with key stakeholders.

#### WASH

- Conducted a WASH needs assessment in Gwange, MMC.
- Strengthened collaboration with WASH sector leadership.
- Participated in a two-day Disease Outbreak and Risk Communication training.

### Impact Made

- Identified and reported clogged drainage systems requiring intervention.
- Strengthened partnership and resource mobilization efforts.
- Improved staff knowledge on disease outbreak messaging.
