MAY
Programme Monthly Bulletin

Executive Summary

In May 2026, Care Best Initiative (CBI) implemented a coordinated, multi-sectoral response across its program areas, delivering essential services in health, nutrition, WASH, protection, and education while strengthening community resilience and well-being. CBI also ensured continued access to life-saving interventions, improved awareness, and enhanced service delivery through integrated and community-based approaches.

At the same time, advanced collaboration and sector coordination were carried out to, reinforce partnerships and collective action within the humanitarian space.
